

# Registration FAQ

## 1. Register to Access the App

You must register at: <https://freshfeeding.devT3K.com/RegisterUser> by providing an email address, choosing a password and choosing your preferred units (metric or imperial). You **must** then wait for a verification email and click the link in the email. You cannot log in until this step is complete.

## 2. I didn't get a verification email at registration

Please wait at least ten minutes. If you didn't receive the email upon initial registration, you can request another one here:

<https://freshfeeding.devT3K.com/ResendCode>

### Send Another Code

Email Address

hi@aemtek.co.uk

SUBMIT

If you receive this screen after providing your email address, **check you have not made a typo at this screen.**

Email Address Not Found!

[Back to Homepage](#)

If you have not made a typo at this screen, and receive the above message, you have made a typo **at registration**. Go back to registration and register there:

<https://freshfeeding.devT3K.com/RegisterUser>

Do not worry about the earlier mistake, it doesn't need to be corrected.

## 3. I can't Log In

If you can't log in, and **you have followed sections 1 and 2**: your password is incorrect. If you've forgotten your password, or you have potentially made a typo at registration, you can reset your password here:

<https://freshfeeding.devT3K.com/PasswordReset>

## 4. I can't Register

If the entire app/registration page is not behaving/does not look how it should, you should:

- Ensure you are using a modern device (>5 years old generally not supported).
- Ensure you are using a browser that meets minimum industry standards (NOT internet explorer, for example).
- Ensure your browser does not have Javascript disabled.
